

CITY OF ST. PETERSBURG

Neighborhood Partnership

The Westminster Heights Neighborhood Plan represents the vision and goals of the neighborhood for its future. Participants in the neighborhood planning process provide input and recommendations used to form policies and priorities of the plan. The plan will be comprised of five (5) elements defined by residents, property owners and stakeholders in the Westminster Heights Neighborhood in the recent “brain storming” session which are: Housing, Infrastructure, Public Safety, Business/Commercial, and Neighborhood Identity. Neighborhood Association meetings will serve as the means to identify the goals, objectives and specific recommendations to address the plan elements. These meetings are open to all residents and stakeholders as well as members of the Association. The Westminster Heights Neighborhood Plan is a collaborative effort between the City of St. Petersburg and the Westminster Heights Neighborhood. Should you have questions, please contact Philip C. Harris at 727-893-4110 or philip.harris@stpete.org.
